10 CENTS A WEEK

WAR BREAKS OUT

The Facts in Clay County Meet in Battle Array.

In Collision Which Occurred Yesterday One Man Is Killed and Several Wounded.

LONDON, Ky., July 18.—The members of two of the factions existing in Clay county met in a royal battle yesterday. Through the fighting done was all of it a skirmish character there was one man killed and several wounded. Aaron Morris, Hugh Griffin, Bob Phillips, Ed Fisher and Sam Griffin were mortally wounded, and this morning at 7 o'clock it was thought they would not live half the day through. Hugh Griffin is also shot, in the thigh, and is mortally wounded, and he too can hardly live long. The excitement yesterday was at a white heat and this morning it showed no improvement, and further trouble is foisted at any moment, for another conflict, this time among the friends of the parties to yesterday's fight, seems imminent.

FRANKFORT, Ky., July 18.—Governor Bradley has not confirmed the reports from Clay county relative to the trouble there yesterday. If he can get an official report of the shooting he will send three companies of militia there immediately. He has several times lately been misled by false reports of trouble in that county and has grown to be skeptical of the stories coming from that section.

ELEVATOR HERE

Tomorrow Morning the Work of Putting It Up Begins.

Supt. George Mueller Arrived This Morning With the Material.

Supt. George Mueller, of the Linton Prince Elevator company, Chicago, arrived this morning and will tomorrow begin the work of putting in the elevator at the custom house.

The elevator, all ready to be put up, arrived over the Illinois Central this forenoon, and is at the depot.

Supt. Mueller stated to a reporter that the work of putting it up will require six weeks, at least. The elevator will be located in the building straight up between the stairs. It is to cost about \$5,000.

STRIKES GROWING.

Spit of Claims to Contrary the Men are Gaining Ground.

CLEVELAND, O., July 18.—The strike is spreading rapidly, but as yet there has been no disorder of any serious nature. Many records have joined the strikers today.

BROOKLYN, N. Y., July 18.—Though the road officials say the strike among the car men is nearly over, the strikers gained two hundred recruits today. They have also prevented any cars from being run on five lines of the city.

ED REDD FINED.

He Failed to Report to the Sanitary Inspectors.

Ed Redd, colored, who runs a garbage wagon, was this morning tried before Justice Emery on a charge of failing to report inspection to the sanitary inspectors as required by law, and a fine of \$10 and costs was assessed against him. The law requires all such people to report the first and fifteenth of every month to the same sanitary inspectors.

CABINET IS PLEASED.

WASHINGTON, July 18.—The cabinet says it is well pleased with the condition of things in the Philippines and that the situation is not at all bad. The members also say the matter from correspondents, forwarded from Hong Kong, is unwarranted by the facts.

LOUISVILLE TRAIN LATE.

The passenger train due at 2:15 this afternoon from Louisville was over two hours and thirty minutes late. The delay was occasioned by a car being off the track at Vincennes, Ky., the passengers being unable to pass it.

THREE WERE KILLED.

PORSCHE, O., July 18.—Three men were today killed and several badly injured in a wreck on the Norfolk and Western railroad near Hayfield. It was an ugly wreck and quite destructive to the rolling stock.

MADE A MAJOR.

WASHINGTON, July 18.—Arthur Sharpley, formerly a first lieutenant in the Third Kentucky, has been appointed a major in the volunteer army.

General Betancourt, civil governor of Matanzas, is believed to be the author of an incendiary proclamation recently issued, designed to incite the Cubans against the United States, and he will probably be called upon for an explanation.

BOTH MUTES.

Their Timid Children, However Can All Tell Well and Hear.

Mr. Peter Goebel, wife and three children, of New Concord, near Maryville, Jefferson county, were in the city this morning and left at 7:15 for Massieville, Ky., on a visit to relatives.

The parents are both deaf mutes, and communicate by means of the regular alphabet and signs and motion. Two of the lips are good looking, and the oldest of whom is eight and the youngest a few months, can both talk and hear, although the baby, who can hear, and judging from the noise, makes with some difficulty to talk. It is very happy family, and both father and mother appear to be very devoted to each other and the children.

LONG IS HERE

Was Brought by Marshal Henry of Livingston.

He Is Charged With Stealing a Brevet Belonging to Mr. A. Jaynes.

Marshal Henry of Henderson, Ky., arrived last night with John Long, who was arrested in Henderson yesterday on a warrant issued to him by A. J. Jaynes, of the Louisville Industrial company, charging him with stealing a brevet that had been stored away in the third story of the building.

Long had been improved by the company, and suddenly left one day. The horse was soon missed and the horse found at a repair shop and the wheel was traced where Long had sold it.

He confessed that he took it, as understood from the Henderson papers, but claims he was drunk. He was arraigned in the police court this evening and the case was set for tomorrow morning.

CASE DISMISSED.

Inadmissible Evidence to Convict Albie Morton.

Albie Morton, a colored girl who sued for immorality, having been charged with the notorious Adele Morton, was tried before Judge C. C. Chapman, sitting on a relation of King and Catherine there, before the Kentucky bar, and was found guilty.

Morton, who was released on bail, claimed in thirty days in not to be much of the place, where she was still going around the window, according to her.

Mr. Chapman dismissed the trial, as it was full of oaks, and made the court the information she had been buying the cake for her. The two women then said the defendant was full of oaks, and when the latter was asked for whom she bought cake, she replied that she bought it for herself. She appears to be only about 17 years old, and her face looks like she has suffered from diseases of the skin.

The woman taken to Boston and it is reported will marry the girl, and thus end the peregrinations of the young woman.

LICENSED TO MARRY.

Missouri Man to Claim a Kentucky Bride.

Mr. A. C. Morgan, of Mississippi county, Mo., and Miss Nellie Leggins, daughter of Mr. Michael Leggins, of the county, were married to-morrow. It is a well known fact, and the marriage will be performed this day at the home of the bride.

COUNTY COURT.

Mrs. Adelia Livingston today quashed an ex parte of the will of her late husband, Mr. M. Livingston.

Mrs. Leo Compton waived her right as administrator of the estate of her late husband, and the public administrator was appointed.

A HINT.

When you feel that this paper has done you an injustice, see the editor that is, if you can do so in a gentlemanly, courteous manner, and don't go to town shouting about it to Dick, Tom and Harry. A hint to the wise is sufficient.

SUES FOR \$2,000

Wants Damages From City and Car Company.

He Was Throwen From a Cart and Had His Knee Dislocated.

Bob Leidinger, colored, of Evansburg, Tenn., who has been improved at a nearby stable near Louisville and Broadwater this afternoon filed suit in the circuit court. Attorney, John C. Miller, against the Louisville Railway and Light company and the city of Louisville for \$2,000 damages.

A few weeks ago when Leidinger was on his way to the Union depot in a drayman's wagon loaded with trunks, the wheels struck the elevated rails of the division streetcar tracks that extended from Third street to the Union depot and the vehicle was overturned.

He was thrown out and his knee was dislocated and torn out, and he will have a stiff leg for life, he alleges. He asks for \$2,000 damages, and makes the city a party to the suit to try to keep up the street in the vicinity of the track.

CARS WRECKED

A Disaster on the Illinois Central at Lexington, Ill.

Hiram Jones Killed and Several Passengers Hurt Among Latter Master Mechanic Berkwith.

ST. LOUIS, July 18.—The river on the Illinois Central railroad was wrecked this morning near Lexington, Illinois, forty miles south of this river, and fifteen cars of the train now were lost and four passengers were injured. Master Mechanic Berkwith was early injured. The wreck was occurring on the winding river.

on the river boats. By virtue of his

argument, the property cannot

be condemned, as no law was made

for that purpose, and even if a price

could be agreed on without condem-

nation proceedings, it could not be

purchased, for no appropriation was

made for that. It is a strange sort

of argument that some of us have.

Agutinio is fighting to rule over

the Philippines, and announced that

he looks for success when the Demo-

cratic party gets in. It is the most

remarkable testimonial that party

ever had ever secured.

If the city waits until winter—and

the weather is cool enough—the gravel

now being placed on the streets may

freeze over and be as good as if it

were not.

Whether false or true it is unfortu-

nate that the assertion is made by

the staff newspaper correspondents

in Manila that the "faid" in the cas-

are being suppressed by the people rep-

resenting the government. It is a

way to tell the truth.

The Sun congratulates the council

for its work last night in disposing of

the question of making this city one

of the second class. A body so wise

and honest a position is entitled to

to forgiveness for other sins of omis-

sion and commission.

The dead silence of the Bradleys

should not interest the Democratic

state press so much as the live kick

of the anti-Goebelites. The Re-

publicans will wake up their "dead

Bradleys" long before the Demo-

crats will be able to kill off their live

kicking anti-Goebelites, and don't you

forget it.

POINSETT QUARY.

The sedate Hickman Courier never

says anything except it is to the point. Lately it remarked:

"Is there any place in active politics

for one who would be strictly honest

and conscientious?" If one would re-

buke a wrong in his own party

leaders, would he not end in electing

the leaders of the other party who

are not a whit better, and may be

worse? And yet, must never

be rebuked, must the guilty ones in

the saddle ever remain, bated and spurred,

and encouraged by the enforcement

of honest men? It is college bred, has

a great deal to do with the en-

forcement of honest men.

There are three men who went by

the name of "Kid" Hogan. Mr. Hogan

attempted through the courts to

prevent "Kid" Hogan, of Brooklyn, from

using the name, but was unsuccessful,

the court holding that one man had as much right as another to

the use of the name.

Mr. Hogan retired from the cup

September, a year ago. He had been in

the profession eleven years, and was

always known as the "gentleman"

of the profession, which title James L. Corbett afterwards usurped—but

only for a short time. Mr. Hogan is

known to everybody of sporting pro-

perties, and nothing but good in ever

said of him. He is college bred, has

a great deal to do with the enforce-

ment of honest men.

Yesterday morning he was seen

at the corner above W. E. Bissell's

saloon. The snake seemed to be

out hunting himself, and was direct-

ly under the window of Mr. Russell's

room. Presently an unwary sparrow

lit on the corner and was an easy vic-

tim to the reptile. Many people by

this time began to assemble to watch

the performance. After the snake

had made a meal of the bird, he had

consciously reemerged about him to be

reached out and caught another.

About this time he was discovered

by a spectator and when he struck the

sidewalk was killed. It was about

two feet or longer, and had every ap-

pearance of being a rattler, but had

no rattles. It seemed to be of the

chicken variety, and its presence on

the cornice was never explained, un-

less Captain Joe Fowler hit the nail

on the head when he said it to the

chicken.

A Mid-Summer Hummer In Sailors.

Our buyer has just returned from market with a beautiful and carefully selected line of new sailors, and some of them are beauties, but we find we have too many, so we will give our customers the benefit and sell them at one-half the usual selling price. We must have money, so we have decided to close out our stock of trimmed hats and bonnets at ridiculous low figures. All our \$6.00 patterns go now at \$3.00. All our \$5.00 ones at \$2.50. All our \$3.00 hats at \$1.50. They consist of trimmed leghems, short back sailors, chifon hats and hats of every shape and style. They must go now regardless of price, to call and see the extreme low figures we have placed on everything pertaining to head gear. All our chiffons, ribbons and flowers are seasonal, mid-summer trimming and our prices cannot be duplicated elsewhere.

TORPEDO BOAT VIPER.

Is to Maintain a Mean Rate of
Forty-three Miles.

Philadelphian Times.—There is building in England a torpedo boat destroyer called the Viper, which has values as a menace on existing systems of warfare. She is to move through the water at the rate of 43 miles an hour, and her propulsive energies work to add the turbine problem to solution, so it is said.

It is useful, as considering what 43 miles an hour mean, to note that no railway train in this or any country preserves an equal speed except for comparatively short distances. To move the train an artificial path is leveled and every advantage is given to the motive power that can be offered to the machine that exerts the active strength. With these aids a locomotive knows no limits to its speed except the strain on its composite parts, the failure of any one of which will stay its efforts. In the water the strongest machine must all the perils of failure that a locomotive engineer has to expect, with the added resistance of the water in which it moves. It is easy to talk about 43 miles an hour at sea, but to realize it for one single hour is a problem only approached, not solved. It is possible by the application of sufficient power, as the old philosopher said, to raise the world with a lever, but he asked for a capable fulcrum, and nobody gave it to him, then nor since.

White's turbine motor has great possibilities, perhaps, it does not put aside the obstacles that immutable nature has placed in its way. When a turbine engine has moved a vessel not at the rate of 43 miles an hour, but 43 miles in one hour, we will have faith in its performances—but not before.

The Franco-American treaty will be formally discussed by the French cabinet council and presented to the Chamber of Deputies for ratification in October.

C. M. Foote, Grand Exalted Leading Knight of the Grand Lodge, Order of Elks, died of heart failure in Minneapolis Sunday. He was one of the best known members of the order.
